Health Services Fee ................................................................................$50/semester
Technology Fee ......................................................................................$50/semester

Please note that a few courses, such as some art, science, music, clinical, kinesiology, and psychology classes, carry small supplemental fees. There also are additional small fees for late payment and for setting up payment plans (see page 2).

**Estimated Indirect Costs for the August 2015 Semester**

Medical Insurance .....................................................................................$590/semester
Books ......................................................................................................$625/semester

**Financial Aid**

Any financial aid you receive from the University of Indianapolis will reduce the direct costs listed above. Please note that all grants and scholarships must be awarded before you begin classes. No additional aid can be granted after you begin your studies at the University of Indianapolis.

**Deposits**

A $100 deposit is required in order to register for classes, and a $50 housing deposit is required in order to reserve a residence hall room. These deposits do not represent an additional cost to you and will be credited to your account when you register for classes.

**Accessing Online Payment Site**

Go to ebill.uindy.edu. At this site, you will be asked to enter your student ID number (A...) and a PIN. The Office of Admissions can provide your student ID number. Your PIN normally defaults to your birth date in the form of MMDDYY. After logging into the payment site, you may check your financial account status, set up a payment plan, make an online payment, or set up someone else as an authorized user to make payments on your behalf. For more information, go to www.uindy.edu/accounting/e-bill-instructions.
**Billing**

Charges will appear on your MyUIndy online account only after you are registered for classes. If charges do not yet appear on your account, please estimate your total charges based on the semester costs listed on the reverse. Remember to subtract any scholarship that you know you have received. **Be prepared to pay this amount on or before August 21, 2015.**

**Payment Due Dates and Payment Plans**

International students' payment for one full semester is due August 21. The University offers payment plans dividing the semester charges into installments. The greater the number of installments, the earlier in the summer the payments must begin. Students sign up for payment plans on their MyUIndy online accounts. **Students who cannot pay at least half of what is due by August 21 will not be allowed to remain enrolled in classes.** (Please note that students who stay in the United States without being fully enrolled are considered to be in violation of the terms of their visa.) If you pay more than the amount due, the balance will be refunded to you. For more information, go to [www.uindy.edu/accounting/payment-plans](http://www.uindy.edu/accounting/payment-plans).

**Other forms of payment**

Payment can be made at the Accounting Office in Esch Hall 151 (Tel: +1-317-788-3221) through any of the following methods:

- Cash in U.S. dollars
- Check from a U.S. bank
- International draft or traveler's checks in U.S. dollars
- Visa, MasterCard, American Express, or Discover
- Wire transfer to University bank account

*The banks handling your wire transactions may charge fees for this service. Please wire funds at least two weeks in advance so that they are sure to reach us by the due date.*

**Personal Bank Accounts**

Banks in the U.S. may require a university ID card in order to open an account. Because you cannot obtain a University of Indianapolis ID card until you are registered for classes, you may need to wait a few days after you arrive before you can open a bank account. In addition, it may take up to ten days for a deposited draft to clear and for the funds to become available for your use. Therefore, we do not recommend that you attempt to open a new account upon arrival and use that account to make your initial payment. It is better to make your initial payment directly to the University through a method listed above.

**Personal Credit Cards and Non-U.S. Bank Accounts**

Please inform your credit card company and your home financial institutions of the range of dates that you will be staying in the United States. Please also ask your credit card company to allow online charges on the University website. It helps to know your total credit limit, daily credit limit, and any individual charge limits, and to have these increased if necessary. In addition, please note that you cannot make in-person payments with an Internet-only credit card.
