READY FOR ANYTHING
The Shaheen College of Arts and Sciences is home to both traditional and innovative programs in the humanities, fine arts, and sciences. Because intellectual flexibility and preparedness is essential to be a leader in the 21st century, we’ve made the development of crucial skills, such as communication, critical thinking, and collaboration, the cornerstone of our programs. UIndy combines solid disciplinary understanding with practical applications through applied learning experiences. Simply put, our students enter college with varying curiosities and graduate well-versed to tackle the many challenges awaiting.

"I CAN’T IMAGINE GETTING THE KIND OF SUPPORT THAT I GET HERE IN THE UINDY ART DEPARTMENT AT ANY OTHER ART PROGRAM. YOU ARE CONSTANTLY BEING ENCOURAGED TO TRY NEW THINGS AND EXPLORE NEW IDEAS WHILE ALSO BEING TAUGHT THE CRITICAL BASICS AND TECHNIQUES TO MAKE QUALITY ARTWORK."

– Maya Johnson ’20, Studio Art

THEATRE

The Roche Academy //
Roche Diagnostics and the University of Indianapolis have partnered to create a custom talent pipeline for biomedical equipment technicians through The Roche Academy. Through this partnership, UIndy biology and chemistry students may be eligible to join the Roche Academy, where they will complete a Roche-customized curriculum path and summer internship experience focused on the hands-on, life science and engineering skills necessary for employment at Roche. In exchange, Academy students successfully completing the program will receive financial and educational incentives, including a job offer from Roche upon graduation.

“THESE RELATIONSHIPS ARE WHY I HAVE BEEN SUCCESSFUL AND ALSO WHY I WAS ABLE TO GET THIS INTERNSHIP WITH ROCHE. UINDY HAS PREPARED ME TO CREATIVELY SOLVE COMPLEX PROBLEMS, WHICH IS IMPORTANT TO ROCHE AND THE WORK THEY DO.”
-Will Durchholz ’20, Chemistry
