Please provide any additional information about or descriptions of the supervised clinical experiences:

This adjunct figure represents head count not FTE since we don't record FTE numbers. These faculty figures overlap with the alternative report numbers as some of the traditional and MAT (alternative) candidates are taught by the same faculty member in that content area. All enrolled candidates are in clinical experience throughout the year, either field experiences or student teaching.

# Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Enrolled Student](#)
- [Program Completer](#)

## Enrollment and Program Completers

2019-20 Total	
Total Number of Individuals Enrolled	142
Subset of Program Completers	39

Gender	Total Enrolled	Subset of Program Completers
Male	22	4
Female	120	35
Non-Binary/Other	0	0
No Gender Reported	0	0
Race/Ethnicity	Total Enrolled	Subset of Program Completers
American Indian or Alaska Native	0	0
Asian	2	1
Black or African American	5	2
Hispanic/Latino of any race	11	1
Native Hawaiian or Other Pacific Islander	0	0
White	120	34

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	0	0
No Race/Ethnicity Reported	4	1

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Academic Major

THIS PAGE INCLUDES:

>> Teachers Prepared by Subject Area

>> Teachers Prepared by Academic Major

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

### What are CIP Codes?

☐ No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

*Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.*

### What are CIP Codes?

Do participants earn a degree upon completion of the program?

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances.  [\(§205\(a\)\(1\)\(A\)\(iii\); §206\(b\)\)](#)

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- ☒ Yes
- ☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- ☒ Yes
- ☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- ☒ Yes
- ☐ No
- ☐ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- ☒ Yes
- ☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- ☒ Yes
- ☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- ☒ Yes
- ☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- ☒ Yes
- ☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

The School of Education works closely with the community to ensure that we are preparing candidates that will meet the needs of our K-12 partners. Both Elementary and Secondary programs include a block-methods field based sequence, which occurs on-site at two schools. In those programs the block includes a course(s)on special needs for the relevant grade levels. The Block courses also include activities that prepare candidates to work with students with disabilities, limited English Language proficiency and students from multiple backgrounds.

# Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

# Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period.  [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

## Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.  [\(§205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

- ☒ Yes
- ☐ No

b. use technology effectively to collect data to improve teaching and learning

- ☒ Yes
- ☐ No

c. use technology effectively to manage data to improve teaching and learning

- ☒ Yes
- ☐ No

d. use technology effectively to analyze data to improve teaching and learning

- ☒ Yes

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Both Elementary and Secondary programs include courses that support Data Literacy and the use of assistive technology to support student learning. Candidate are expected to include the use of technology in their planning, instruction and assessment projects as they move through the program. The unit is also working to determine courses that will embed both Google and Apple certifications.

Provide the following information about your teacher preparation program.

[\(§205\(a\)\(1\)\(G\)\)](#)

## Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

During the sophomore year, special education content is introduced in the educational psychology and diversity courses; this lays a foundation for pedagogy courses. During the junior year all levels (secondary/all-grade/elementary) candidates have a minimum of one special education course and connected field experience; field experiences are supervised by an on-site, special education faculty member. Elementary candidates have two special education classes with connected fields. During student teaching, all candidates must demonstrate proficiency in differentiated instruction, developmentally appropriate practice, assessment of student learning, and the ability to design lessons based on student data, elements that are essential when teaching students with special needs.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Both Elementary and Secondary programs include a block-methods field based sequence, which occurs on-site at two schools. In those programs the block includes a course(s)on special needs for the relevant grade levels. We then require three additional courses allowing the candidates to add on the mild intervention license to their content license. We do not offer the special education license as a stand-alone option.

c. Effectively teach students who are limited English proficient.

Secondary/All-Grade: Both foundational /pedagogical ELL content is incorporated into the content literacy course (semester I, junior year). During content methods courses (semester II), content instructors build upon the knowledge and skills learned and provide strategies specific to their content area. Elementary: ELL content is integrated into both literacy (semester I) and special education classes (semesters I and II). As part of the literacy course, candidates learn about language development including phonemic awareness and speech articulation and how these skills support literacy development for ELL students. Discussions also include how to communicate with and support families of ELL students. In the special education courses candidates focus on how principles of Universal Design for Learning (UDL) support English Language Learners' academic growth. In addition to course instruction, both secondary/all-grade and elementary candidates work in classrooms with ELL learners throughout their junior field experiences (2 semesters) and student teaching.

2. Does your program prepare special education teachers?

☒ Yes

☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

In EDUC 272 (Introduction to Special Education), candidates complete modules on the definition, needs, and common accommodations for students with high-incidence disabilities. In EDUC 385 (Classroom Management), candidates complete modules on Multi-Tier Systems of Support; Tier I behavior and classroom management strategies in academics and behavior; Tier II behavior and classroom management strategies in academics and behavior; and, Tier III behavior and classroom management strategies in academics and behavior. Candidates also complete modules on social-

emotional learning and childhood trauma including strategies to address psychoeducational needs. In MI Student Teaching, candidates complete a capstone project: The Behavior Assessment and Instruction Project is completed throughout the Student Teaching placement during the winter semester of the senior year. The Behavior Assessment and Instruction Project requires candidates to apply information they've learned during Classroom Management through Positive Behavior Support regarding the use of data collection and analysis to guide instruction, building on the foundation of Tier 1 supports. The goals of this assessment and instruction project include: -- Assessment -- Facilitate objective conversation among school staff in order to identify observable and measurable target behavior-- --Select data collection tools consistent with the information to be gathered about the target behavior --Collect and analyze data alongside school staff in order to determine the hypothesized function of the behavior -- Summarize information collected through the assessment process to create a Functional Behavior Assessment report --Instruction --Apply conclusions from the Functional Behavior Assessment to create an instructional plan that addresses: -- Hypothesized function of behavior -- Social/medical/health/academic skills as they pertain to meeting expectations of the school environment --Replacement or alternate behavior -- Implementation with fidelity and progress monitoring --Summarize instructional plan into a 1 page document in order to ease the implementation of the instructional plan --Foundation for Implementation --Create a classroom management plan that focuses on components of positive behavior supports - -Articulate your philosophy of classroom management and how it aligns to the use of the behavior instructional plan

**b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.**

While taking the first course in the Mild Interventions program all candidates seeking licensure in Mild Interventions complete modules on IDEA and the IEP planning process. During the next course in the sequence, Services should also identify specially designed instruction and accommodations required for the student's success based on characteristics of the disability.

**c. Effectively teach students who are limited English proficient.**

The Elementary program includes a course in systematic intervention for students with reading difficulties. ELED-301 Systematic Interventions for Sts with Reading Difficulties- In this course candidates will use the principles of UDL to design and differentiate curriculum and assessments in order to build the literacy skills for all learners, including the English language learners.
