Override Codes

Override codes are entered by academic advisors prior to online registration, providing students a seamless registration experience. Some registration errors are unforeseen, however, many registration errors may be prevented through advising discussions and providing the appropriate override information to the academic advisor prior to registration.

Please review the override codes below and enter the appropriate code, if needed, in the space provided on the first page of the registration form. Instructor approval is required for some overrides (see below). Instructors may give their approval by initialing in the space provided next to the course information on the first page of the registration form.

Override Code	Override Description	Requires Instructor Approval?
CLASS	Allows student to register for a class for which they do not meet the student class requirement, i.e., freshman, sophomore, etc.	Yes
COREQ	Allows student to register for a class without requiring the corequisite for a course, e.g., the student wants to register for CHEM 150 without 151 because they have already received a passing grade for the class.	Yes
DUP	Allows student to register for the same course subject and number that is already on their registration (this error may come up for a student who is taking two Special Topics courses in the same term).	No
HONOR	Allows student to register for an Honor's College class, for which they require the Honor's College advisor's signature	Yes
LEVEL	Allows student to register for a course that is at a different level than their current matriculation, e.g., undergrad, graduate, etc.	Yes
MAJOR	Allows student to register for a class that has a field of study restriction on it. Student must have already received special permission from the department chair or dean to enroll.	Yes
PERMIT	Allows student to register for a class that requires 'special approval', e.g., music audition/contact department, need instructor's signature, etc.	Yes
PREREQ	Allows student to register for a class that requires a prerequisite course. This error will appear for students, most likely, when they are allowed to take the prerequisite concurrently with the course in question.	Yes
REPEAT	Allows student to register for a class that they have already taken at least one time and for which they have received a grade (error does not appear for courses for which a student previously withdrew).	No
